The State Government has set up the Forensic Science Laboratory (F.S.L.) at Narsingarh, West Tripura under the Home Department. All the prerequisites required to conduct forensic examination relating to chemical crime-exhibits have been completed in the F.S.L. at P.T.C. Complex, Narsingarh, P.O. Bimangarh, Pin - 799015. The Director General of Police is requested to inform all Superintendents of Police and Officers -In-Charge of Police Stations of the State to send chemical exhibits seized in different crimes like drug trafficking, drug abuse, explosion, illicit liquor, acid throwing and adulteration in petrol, diesel cases to the FSL w.e.f. 1 June 2003.

The nature of exhibits to be examined in Chemistry Division are:

1. Narcotic drugs and psychotropic substances (ND&PS cases).
2. Petrol, diesel (adulteration cases).
3. Post explosive remnants (not live explosives).
4. Chemical used for preparation of high/low explosives.
5. Different acids (acid throwing cases).
6. Suspected spurious liquor.
7. Precious stones.
8. Metal (qualitative analysis of gold, silver, platinum etc.).
9. Cement (adulteration cases).
10. Remnants of inflammable oil from semi burnt materials (bride burning and arson cases).
