

Strengthening of State FSL under different schemes during 2020

(I) Bio/Sero/DNA/Cyber divisions are strengthened under Nirbhaya Scheme, MHA Government of India & 2.11 cores have been sanctioned.

(II) New extension of FSL building at the cost of 2.30 cores is under construction & likely to be completed shortly.

(III) Lie detection division is going to be housed in FSL in the near future and manpower components have been sanctioned by the Government

(IV) The following Hi-tech equipment have been purchased under SDRF scheme to meet the post disaster management:

(i) DNA Sequencer imported is used to identify the unidentified dead body

(ii) Head Space Gas Chromatograph is used to identify alcohol level in drunken driving cases and hazardous chemicals in mass poisoning

These two vehicles are purchased under Nirbhaya Scheme for timely collection of physical evidence from the victim/accused in sexual offence cases.
